

Manual de instalación de Qt Creator en Windows

Intersemestral
Proteco 2017-2

Paso 1:

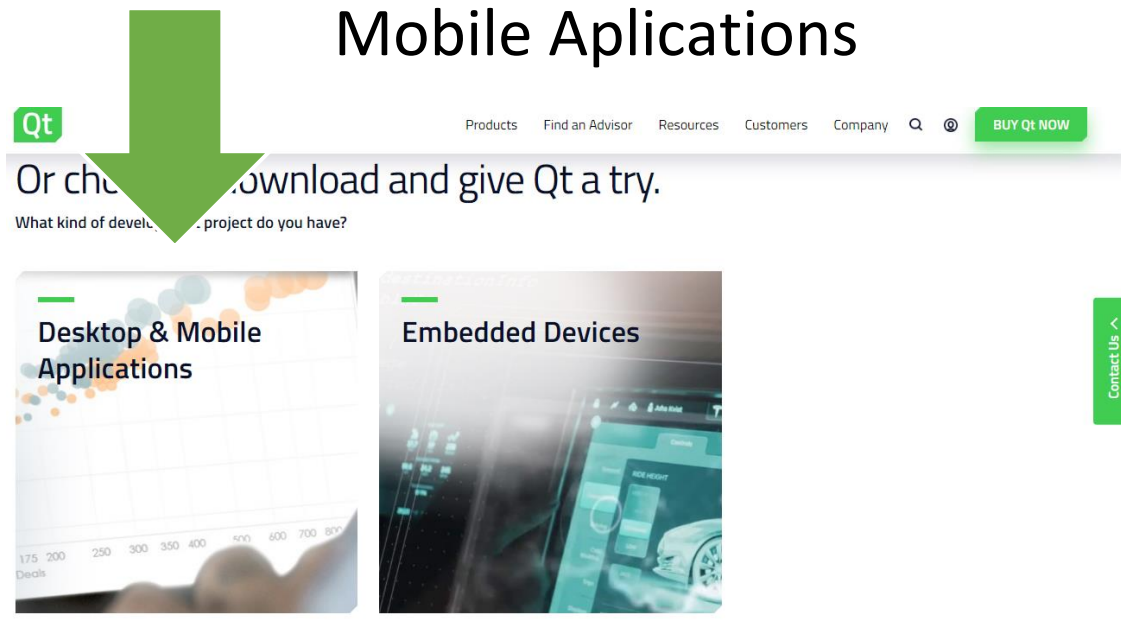

Ingresar a la página oficial de Qt.

<https://www.qt.io/download/>

Paso 2:

Clic en la ventana que dice Desktop & Mobile Aplicaciones

Paso 3:

Clic en [Get Your Open Source Package](#)

The image shows two side-by-side panels comparing Qt's licensing options. The left panel, titled 'Commercial', has a dark blue background and lists features like 'Pricing starting from \$295/month', 'Official Qt Support Helpdesk*', and 'Commercial Freedom - No GPL/LGPL Obligations'. It includes a green diagonal banner that says 'Free 30 day trial'. The right panel, titled 'Open Source', has a light gray background and lists features like 'Free as in "free speech"', 'Community support', and a 'Free Speech' overview with bullet points about licensing obligations. A large green arrow points from the 'Open Source' panel towards the 'Get your open source package' button.

Commercial

Free 30 day trial

Pricing starting from \$295/month
Annual perpetual & term subscription licensing options

Official Qt Support Helpdesk*
Direct contact with The Qt Company & priority access to Qt R&D

Commercial Freedom - No GPL/LGPL Obligations

- ✓ Application privacy with static & dynamic linking of Qt libraries
- ✓ No need to provide a license copy or explicitly acknowledge Qt usage
- ✓ No need to make a copy of your Qt source code available for customers
- ✓ Full rights to proprietary Qt source code modifications
- ✓ Can make "closed" consumer devices
- ✓ Enforceable Digital Rights Management
- ✓ Enforceable software patents

Qt ships with third party open source components that might require respective licensing compliance if used. See details of other licenses inside Qt.

* Not included with Start-up license.

Start your free 30-day trial

Open Source

Free as in "free speech"
Available under GPL & LGPLv3 licenses

Community support
Access to global open source community resources

"Free Speech" Overview - Open Source Licensing Obligations

- Using parts of Qt that are only available under GPL requires open sourcing of your application when distributing
- Must provide a relinking mechanism for Qt libraries
- Must provide a license copy & explicitly acknowledge Qt usage
- Must make a Qt source code copy available for customers
- Qt source code modifications aren't proprietary
- Must make "open" consumer devices
- For Digital Rights Management see (LGPL FAQ)
- Special consideration should be taken when attempting to enforce software patents

When developing with Qt Open Source, we stress that you should be aware of the GPL or LGPL and your legal obligations. Before you start developing your project complies with the license & your company allows open source usage.

Get your open source package

Paso 4:

Creamos una cuenta en [Create an account now.](#)

The image is a screenshot of the Qt website's 'Your download' page. It features the Qt logo, navigation links (Products, Find an Advisor, Resources, Customers, Company), and a 'BUY Qt NOW' button. The main content area says 'We detected your operating system as: Windows' and 'Recommended download: Qt Online Installer for Windows'. It includes links to 'learn about the obligations of the LGPL' and 'read the FAQ about developing with the LGPL'. A large green arrow points from the 'Download Now' button to a green box at the bottom that says 'Get access to the Qt Knowledge Base' and 'Please create your account profile.' with a 'Create an account now' button. To the right, there are images of Qt-based medical device interfaces on various screens.

Paso 5:

Volvemos registrarnos:

The image shows the Qt 'New Account' registration page. It features a green 'Qt' logo at the top, followed by the title 'New Account' and the subtitle 'Your unified login to everything Qt'. The form includes input fields for 'Email', 'Password', and 'Verify password'. Below these is a CAPTCHA challenge with the text 'Enter characters'. A checkbox labeled 'I accept the service terms.' is present. A green 'Create Qt Account' button is at the bottom, with a green arrow pointing to it from the right. A link for 'Password requirements' is located below the button.

Luego le damos **Continue** y luego **Allow**.

The screenshot shows the 'Instalación de Qt' window with the title 'Qt Account – Your unified login to everything Qt'. It has a back arrow and a close button (X) at the top. The main heading is 'Please log in to Qt Account'. There are two sections: 'Login' and 'Sign-up'. The 'Login' section has fields for 'Email' and 'Password', and a green link 'Forgot password?'. The 'Sign-up' section has fields for 'Valid email address', 'Password', and 'Confirm Password'. Below these fields is a checkbox labeled 'I accept the service terms.' with a green link 'service terms.'. At the bottom right, there are two buttons: 'Next' (highlighted with a blue border) and 'Cancelar'. A large green arrow points from the 'Next' button in the previous step to the 'Next' button in this step.

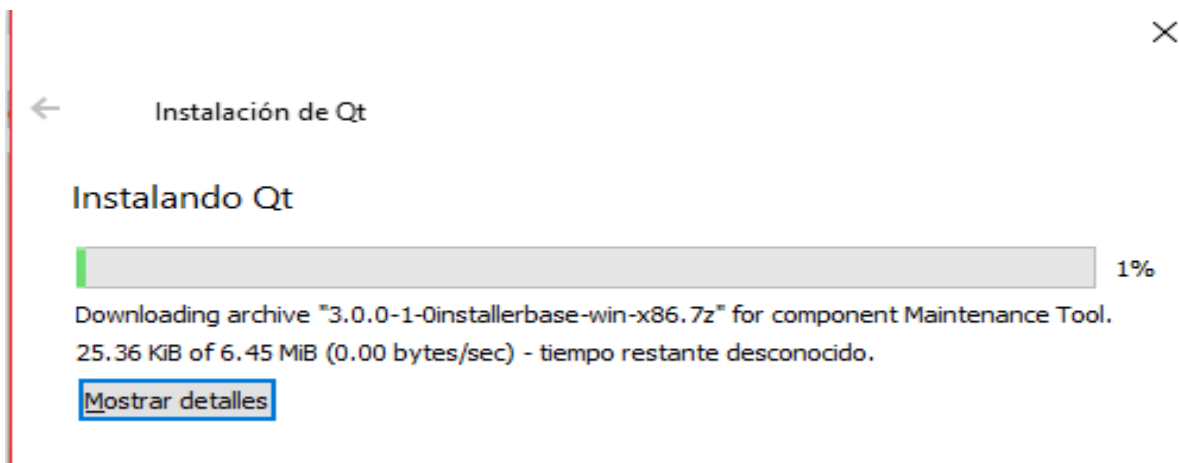

Paso 10:

Esperamos a que cargue correctamente, luego varios siguiente y siguiente.
